

P3. May ride a roller coaster

To ride a roller coaster, a rider has to be at least 120-cm tall. Write a program to ask a potential rider for his/her height (in cm) and if the potential rider can ride, let him/her know, otherwise apologize him/her.

Example 1:

```
=====
Your height (cm): 130
Welcome on board!
=====
```

Example 2:

```
=====
Your height (cm): 110
Sorry. You have to be at least 120 cm to ride.
=====
```
